

Introduction to the Metaverse

Duration 1 Day

About Metaverse

Metaverse is the next evolution of the internet. Metaverse is not just a digital environment for online gaming; it's much more. It's a digital world connected via blockchain, virtual reality, augmented reality, online gaming, and digital assets. Metaverse can open up opportunities for both businesses and individuals.

About This Class

Everyone is wondering the same thing: What is the Metaverse?!

Well, in this short class (Won't be short for long as I will keep on updating the course as the Metaverse starts taking shape and form) you are going to know the baby-steps to the metaverse and why it is coming at us by storm.

In this class you will know:

- What the metaverse is.
- Why people will adapt to the metaverse
- The relation between NFTs and the metaverse
- Where to invest in the metaverse

Course Outline
